EAO)))
EUROPEAN ASSOCIATION FOR OSSEointegration
CONGRESS

SEPES
Sociedad Española de Prótesis
Estomatológica y Estética

MADRID

5-7 OCTUBRE 2017

No te pierdas el congreso europeo de SEPES

Dr. Nacho Rodríguez Ruiz
PRESIDENTE DE SEPES

Dr. José María Medina Casaubón
DIRECTOR DE SEPES INFORMA

Seguimos trabajando en la progresiva internacionalización de SEPES, este año nuestro congreso anual, el 47, será conjunto con el de la European Association for Osseointegration, EAO del 5 al 7 de octubre en Madrid y estará presidido por el Dr. Alberto Sicilia por parte de la EAO y por el Dr. Nacho Rodríguez por parte de SEPES. En esta labor nos acompañan como vicepresidentes el Dr. Mariano Sanz, el Dr. Jaime Gil y el Dr. Jaume Llena.

Esta unión ha dado lugar a un programa científico complementario que supone una puesta al día en Implantología, Prótesis, Estética y en la necesaria relación entre clínicos y técnicos. Complementando el programa tendremos el simposio de SEPA. Esta variedad temática es lo que se está demandando actualmente en los congresos a nivel internacional y lo que los hace atractivos para los congresistas que asistimos. Estamos seguros de que será interesante para los que estéis allí.

Un mes antes de nuestro congreso EAO & SEPES, el Consejo General organizará del 29 de agosto al 1 de septiembre también en Madrid, el Congreso de la Federación

Dental Internacional, FDI. Nueva mente habrá en el programa científico presencia de conferenciantes españoles que darán muestra a la comunidad dental internacional del alto nivel de la Odontología española. SEPES, que aportará al programa científico dos conferenciantes de Prótesis y Estética, colabora y apoya al Consejo para que esta importante cita científica sea un éxito.

El próximo año, SEPES celebrará en Valladolid del 11 al 13 de octubre su Reunión Anual presidida por el Dr. Guillermo Galván, con importantes ponentes internacionales. Además, SEPES junto a su análoga europea la European Prosthodontic Association, EPA, organizará del 13 al 15 de septiembre en Madrid un congreso presidido por el Dr. Guillermo Pradies. Será una magnífica oportunidad para unirnos a nuestros colegas europeos en torno a la Prótesis.

Y ya en 2019, del 10 al 12 de octubre y presidido por el Dr. Miguel Roig, el Congreso Anual de SEPES que nos llevará a Barcelona será nuevamente conjunto, en esta ocasión con la International Federation of Esthetic Dentistry IFED, Sociedad a la que pertenecen más

de treinta y cinco Sociedades de Estética de todo el mundo. Será un gran congreso internacional en el que la Estética, área de la Odontología que junto a la Prótesis forman parte del ámbito de SEPES, será el eje motor sobre el que gire el programa científico.

Esperamos poder contar con vuestra compañía en estas reuniones. La Junta de SEPES os deseamos un feliz verano y un merecido descanso.

Sociedad Española de Prótesis Estomatológica y Estética

SEPES CONVOCA SUS PREMIOS ANUALES Y BECAS DE INVESTIGACIÓN:

2 BECAS DE INVESTIGACIÓN en Prótesis y Estética:
Fecha límite de envío de proyectos: hasta el 15 de julio.
Dotación 6.000 € c/u.

PREMIO SEPES-GASCÓN al mejor trabajo demostrativo de un estudio original en prótesis estomatológica y estética:
Plazo límite de entrega de trabajo: hasta el 30 de junio.
Dotación 2.400 €

Patrocinado por: QUINTESSENCE

BECA SEPES SOLIDARIA a proyectos promovidos por ONGs cuyo destino sea la promoción de salud bucodental en territorio nacional:
hasta el 30 de junio.
Dotación 6.000 €

PREMIOS COMUNICACIONES SEPES-EAO:
Fecha límite de envío de trabajos: hasta el 30 de junio.

- **Premio SEPES Junior:**
dotación 6.000 € para gastos de formación.
- **Comunicación Oral Clínica:** Dentsply Sirona
dotación 1.000 €
- **Comunicación Oral de Investigación:** Dentsply Sirona
dotación 1.000 €
- **Comunicación Póster Clínica:** 3M Science. Applied to Life.
dotación 1.000 €
- **Comunicación Póster de Investigación:**
dotación 1.000 €

Odontología Europea Interdisciplinar en el Simposio VALORES SEPES & EAO JUNIOR COMMITTEE

SEPES celebró el 4 de febrero en la sede del COEC de Barcelona su 4º Simposio VALORES SEPES organizado por la Dra. Beatriz Giménez como presidenta de la comisión Valores SEPES. En esta ocasión, SEPES quiso que el Simposio se hiciera conjuntamente con el Junior Committee de la EAO, comité presidido por el Dr. José Manuel Navarro. La Jornada alternó conferenciantes nacionales (VALORES SEPES: José Bahillo, Álvaro Blasi, Manuel Sancho, Juanjo Iturralde, Herminio García y Carlota Suárez) y conferenciantes internacionales

Algunos de los ponentes de este Simposio VALORES SEPES.

representando al sector junior de la EAO (Ferruccio Torsello, Andre Chen, Stefan Vandewegue, Sven Mühlemann, Luca de Stavola y Joan Pi-Anfruns). El Dr. José Mª Barrachina fue el coordinador de la jornada.

Colaboraron:

Notificación Asamblea de socios:

SEPES celebrará el día 5 de octubre a las 19:00 h. en el IFEMA de Madrid su Asamblea General Ordinaria de Socios.

Sociedad Española de Prótesis Estomatológica y Estética

Federico Ferraris y El Diseño Digital de La Sonrisa en el pasado SEPES PRIMAVERA

La planificación y tratamiento moderno de la sonrisa a partir de la herramienta del *Digital Smile Design DSD* y la cuestión de porqué en ocasiones los pacientes no le dan el valor apropiado a las propuestas de tratamiento que los odontólogos hacen, fueron los ejes sobre los que giró la conferencia de Ferraris. Por su parte, Antonio Sáiz-Pardo que participó también como ponente invitado en este Curso hizo hincapié en la rehabilitación estética con planificación guiada por DSD, tanto para carillas de porcelana como para composites inyectados

La Reunión estuvo coordinada por el Prof. Jaime Gil y por el Dr. Alfonso Arellano

Colaboraron:

Odontología INTERdisciplinar y Aforo completo en la Reunión de Invierno SEPES BAQUEIRA.

Los doctores José Bahillo e Irene Tarazón coordinaron un programa científico interdisciplinar reforzado con interesantes debates. La participación de Ignacio Loi como ponente "fuera de pista" fue una sorpresa. Se puso de manifiesto a lo largo de todo el Curso la importancia del trabajo en equipo y quiso dar respuesta a las dudas sobre el plan de tratamiento adecuado y el orden en el que debe intervenir cada profesional en casos complejos.

Participaron como ponentes de esta Reunión de Invierno: Manuel Ruiz, Ignacio Faus, Pablo de la Cuadra, Raúl y Álvaro Ferrando, Alfonso Oteo, Ramón Lorenzo, Luis Nart, Ignacio Ginebreda, Bruno Pereira y Javier Pérez.

Colaboraron:

PROMOCIÓN del CONGRESO EAO & SEPES EN LA ORALTHBCN

Estuvimos en la feria ORALTHBCN de Barcelona para promocionar el próximo congreso EAO & SEPES de Madrid así como del resto de cursos que tendrán lugar a lo largo de estos próximos meses.

SEPES presentó LA 48 REUNIÓN ANUAL SEPES VALLADOLID 2018

Participarán ponentes internacionales de la talla de **John Koys**, Angelo Putignano, Williams Robins, Dean Koys, Edward Borio y Dought Thompson

SEPES reunió en Valladolid a la Industria para presentar su 48 Reunión Anual que se celebrará del 11 al 13 de octubre de 2018 en el Centro Cultural Miguel Delibes de Valladolid.

La presentación corrió a cargo del **Dr. Guillermo Galván** como presidente del Congreso. La Industria respondió a la llamada de SEPES con gran interés dándose cita más de treinta empresas que pudieron ver in situ las salas y auditorios que el Miguel Delibes dispone para las conferencias así como el espacio que SEPES ha previsto para ubicar la zona comercial ExpoSEPES. A día de hoy son casi 50 los stands contratados ya para este congreso que tiene como lema Evidencia científica & Experiencia clínica.

SEPES participó con dos ponentes de PRESTIGIO EN EL MAXILLARIS Day

Los doctores Eduardo Anitua y Beatriz Giménez fueron los representantes de SEPES en una jornada dedicada a los nuevos horizontes de ciencia y tecnología hacia los que se orienta la Odontología. El tratamiento del alveolo post-extracción en el sector estético y la transición hacia una Odontología totalmente digital fueron los temas que abordaron respectivamente los ponentes de SEPES

REUNIÓN CONJUNTA SEPES-Colegio de Sevilla.

El Colegio de Sevilla albergó el 22 de abril la Reunión Conjunta entre el Colegio y SEPES sobre rehabilitación adhesiva y oclusión funcional que impartió el Dr. Álvaro Ferrando y dirigió el Dr. Rafael Martínez de Fuentes.

Esta reunión se engloba dentro de la serie de cursos que organizan los colegios adheridos al sello Amigos SEPES y en los que la sociedad colabora con la aportación de los ponentes, generalmente VALORES SEPES.

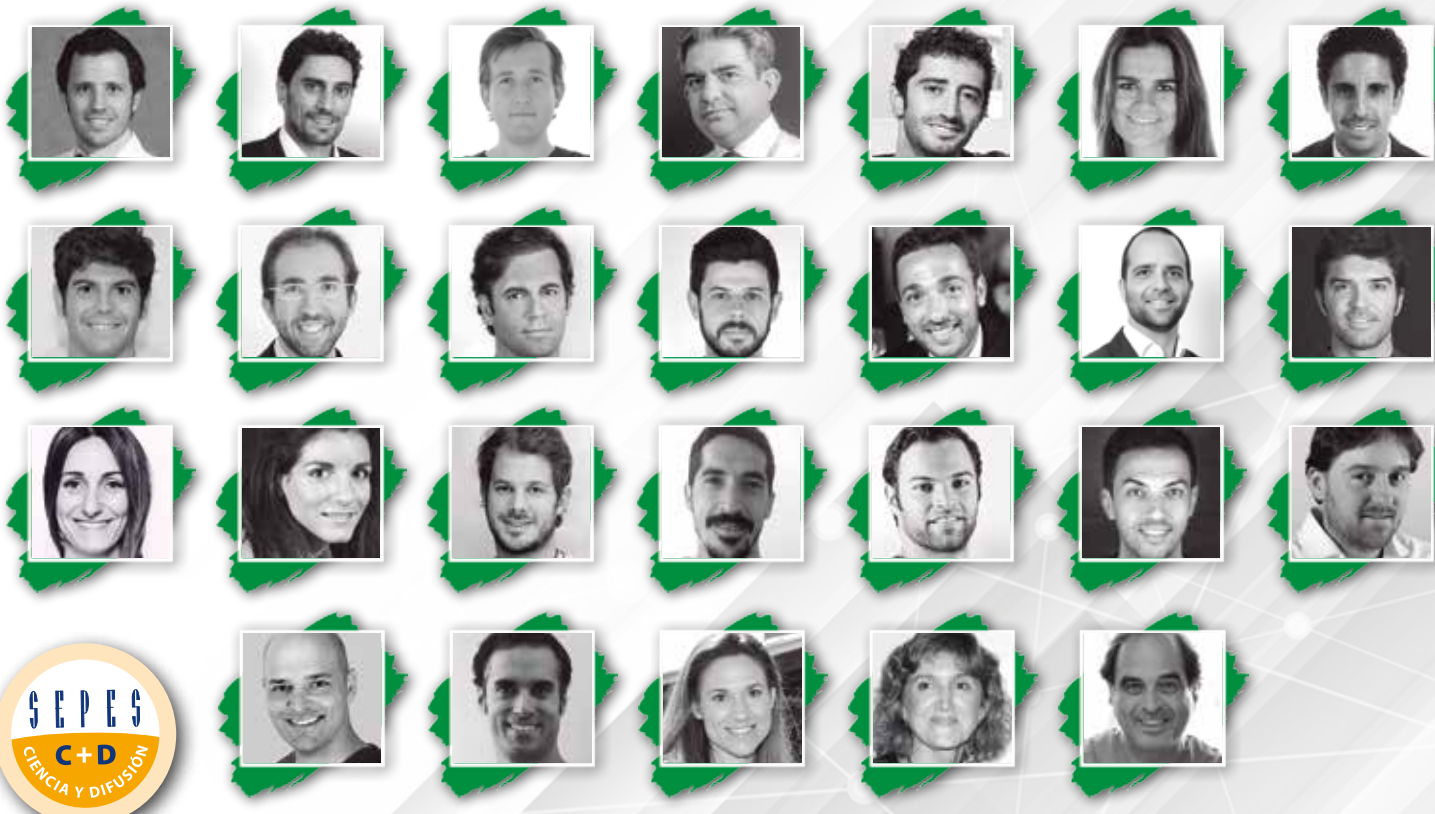

Campus VALORES SEPES 29 JUNIO AL 2 JULIO

Del 29 de junio al 2 de julio se celebrará en Padua (Italia) el 3er Campus VALORES SEPES con la Técnica BOPT como tema de estudio y que dará lugar al posterior documento de consenso que editará SEPES. Se reunirán 27 odontólogos en grupos de trabajo coordinados por la presidenta de la Comisión VALORES SEPES, Beatriz Giménez. El documento de Consenso será enviado a todos los socios de SEPES.

Colabora:  **sweden & martina**

MAIN SESSIONS

These plenary sessions will focus on three major topics and include a series of interactive debates.

ARENA

These sessions will explore key topics analysing 25 years of implants to answer the question 'How far have we come?'

INTERACTIVE SURGICAL VIDEO SESSION

An interactive and informative session featuring in-depth discussions of videos showing surgical cases.

DIAGNOSIS SESSION

Hear different approaches and treatment plans being discussed for a variety of straightforward and complex cases.

PROSTHODONTICS & AESTHETIC INTERNATIONAL JOURNEY (P&AIJ)

ORAL COMMUNICATION (IN ENGLISH)

Hear about exciting new research findings selected from conference abstracts as presenters compete for prizes.

SEPES ORAL COMMUNICATION (IN SPANISH)

Presentation of scientific and clinical oral communications and posters. Speakers will compete for SEPES prizes. Find out more at: www.sepes.org

EAO-SEPA EUROPEAN SYMPOSIUM

Three sessions organised jointly by the EAO and SEPA on topics for delegates interested in both implantology and periodontology .

INDUSTRY SYMPOSIA

Learn more about key subjects in these industry sponsored symposia featuring research and innovation.

HANDS-ON SESSIONS

The “hands-on” sessions promote new techniques and offer high-level practical training under the

🕒 10:30 > 12:30

ISQ as an objective key value for digital workflows and the importance of resonance frequency analysis guiding clinical decisions for complex cases

Steven Eckert (USA), Giorgio Tabanella (Italy), Luis Cuadrado (Spain)

Moderator: Marcus Dagnelid (Sweden)

Patient focused Implant Dentistry is changing and protocols especially around immediate loading are being redefined to accommodate the benefits of digital planning/ diagnostic tools. There is therefore a need for an objective tool to guide and optimize the whole implant treatment, valid for complex as well as simple cases. These speakers represent more than 30 years of combined experience with Osstell and the ISQ scale in daily practice and will in this unique and interactive lecture discuss the process of osseointegration success in various treatment indications, illustrated by cases and data.

B.O.P.T.: innovative techniques on natural teeth and implants

Ignazio Loi (Italy)

The B.O.P.T. (Biological Oriented Preparation Technique) is a simplified prosthetic procedure that permits to operate in clinical cases already treated at a prosthetic level.

New concepts belonging to this technique will be analysed: the controlled invasion of the sulcus, the adaptation to the emerging profiles and the selective abrasion.

To evidence the long-term stability of the aesthetic results obtained with B.O.P.T. cases will be shown step by step, as well as follow-ups.

The B.O.P.T. concepts have been transferred to an implant level with the creation of vertically millable posts. The soft tissues thickening allows to obtain a greater stability and an excellent aesthetic result in the marginal zone. Further evolution has been the realization of a new trans-gingival implant: PRAMA.

THU	FRI	SAT
MORNING	MORNING	MORNING
AFTERNOON	AFTERNOON	AFTERNOON

🕒 17:00 > 19:00

Geistlich
Blomaterials

New treatment methods in soft tissue management

Giovanni Zucchelli (Italy), Mariano Sanz (Spain), Daniel Thoma (Switzerland)

Moderator: Christoph Hammerle (Switzerland)

The first part of the Geistlich Symposium will focus on optimal flap designs for soft tissue augmentation, key factors for successful healing and current trends on how to handle soft tissue dehiscences. The following presentations will give deeper insights into soft tissue management procedures at implant sites and the coverage of recessions – all in the light of the question: “When do autogenous grafts remain the gold standard – and when can they be replaced by innovative biomaterial solutions?” An interactive panel discussion focusing on treatment planning of a clinical case will round off the symposium.

Advancements and Innovation to bring predictable and cost effective solutions to more patients – introduction to a new edentulous concept

José Manuel Navarro (Spain)

Nobel Biocare Forum – Innovative Treatment Protocols – Shortening Time to Teeth

Why & How are we doing Immediate Implant placements, development and focus on patient

Joseph Kan (USA)

The session will cover contemporary clinical solutions for shortening time to teeth from immediate single tooth, emerging technology and integrated digital workflow to a new concept to treat the edentulous mandible with fixed definitive bridge in single surgical appointment.

How can digital dentistry facilitate the workflow – from planning to final restoration for optimal outcomes?

Leon Pariente (France), Karim Dada (France)

Optimize the biology and soft tissue behaviour for aesthetic end results

Eric Rompen (Belgium)

Las comunicaciones presentadas a la EAO **por socios de SEPES** que hayan sido aceptadas pero que no opten a premio, podrán presentarlas a comunicaciones de SEPES en inglés, siempre y cuando, tengan relación con la prótesis y/o estética.

INVITED REGION: LATIN AMERICA

Since its inception in the late 1980s, the EAO has been a forum for European researchers and clinicians. In recent years, increasing numbers of our members from non-European countries have joined. We are delighted and honoured to welcome to our ranks so many members from South/Central America, the Middle East, Eastern Europe and Asia.

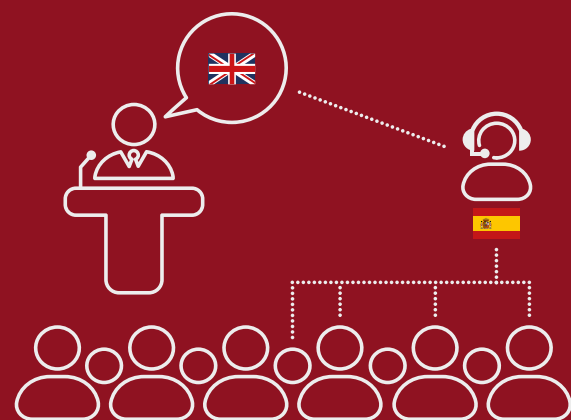

As a mark of our recognition and appreciation of this, and because SEPES and SEPA both also have members from this region, the EAO has chosen to welcome Latin America as a guest region during the joint meeting.

Delegates from Latin America (individual countries listed below) will be offered registration fees at discounted rates which are normally reserved for members only, and can register for 290€ instead of 600€ (early bird).

In addition, a section of the exhibition area will be dedicated to a 'Latin American Corner' where regional associations can showcase their activities. Cultural events will also be organised to encourage exchange and networking between delegates from different countries.

External connections and no abutments
João Caramês (Portugal)
Internal connections and abutments
Xavier Vela (Spain)

ORAL COMMUNICATION

The EAO-SEPESE joint meeting encourages researchers and clinicians to present, discuss, and exchange new research results within the field of implant therapy and related disciplines via submission of scientific abstracts. During the oral communication sessions, delegates can hear short oral presentations from the authors whose abstracts were rated highest by the Abstract Committee.

CERTIFICATION WORKSHOP

Learn how to obtain the EAO's prestigious Certificate in Implant-based Therapy

🕒 15:30 > 17:00 🎧 (SESSIONS TRANSLATED IN SPANISH)

ARENA 4

What are the limits of immediate implant placement and immediate restoration?

CHAIR
Jan Cosyn (Belgium)

—
The socket without buccal bone wall
Paolo Fernando Mesquita (Brazil)
The approach to posterior wide sockets
Otto Zuhr (Germany)

P&AIJ SESSION 3 *

The combination of dental implants and orthodontic therapy in the functional rehabilitation of partially edentulous patients

CHAIR
Jaume Llena (Spain)

—
Orthodontic therapy with the aid of implants: advantages and limitations
Marco Rosa (Italy)
The use of implant-supported prostheses to restore function after orthodontic therapy
Javier Casas (Spain)
Cristina Suarez (Spain)

BATTLE OF CONCEPTS

The restorative treatment of the partially edentulous periodontitis patient

CHAIR
Stefan Fickl (Germany)
CO-CHAIR
Iva Milinkovic (Serbia)

—
SPEAKERS
Tommie Van de Velde (Belgium).
Ignacio Sanz Sanchez (Spain)
Ignacio Sanz Martin (Spain)

ORAL COMMUNICATION

The EAO-SEPESE joint meeting encourages researchers and clinicians to present, discuss, and exchange new research results within the field of implant therapy and related disciplines via submission of scientific abstracts. During the oral communication sessions, delegates can hear short oral presentations from the authors whose abstracts were rated highest by the Abstract Committee.

🕒 17:15 > 19:15 Satellite industry symposia

See page 13

Friday October 6th SATELLITE INDUSTRY SYMPOSIA

🕒 17:15 > 19:15

straumann

In modern dental implantology, patients and dentists expect not only a safe and predictable treatment outcome, but they also look for cost- and time-efficient solutions. In the following presentations, the presenters discuss various effective treatment concepts, and they define the requirements for a successful treatment outcome.

Achieving optimal results with immediate implant placement in the aesthetic zone

Daniele Cardaropoli (Italy)

Clinical evaluation of fixed, complete, implant-supported overdentures performed in mandible using a combination of the Straumann® Roxolid® Implants of 4 mm and conventional length

José Luis Calvo Guirado (Spain)

Successful treatment of edentulous patients using the Straumann® ProArch® concept with tilted distal implants

Helena Francisco (Portugal)

Practical experience with the Straumann® Novaloc® retentive elements in combination with removable implant overdentures

Charlotte Stilwell (UK)

Pushing the limits of minimally invasive techniques in implant dentistry

Eduardo Anitua (Spain)

Modern implant dentistry is moving toward implant treatment completion in shorter time, optimize cost and evidence-supported predictability. This trend change is the net outcome of collaboration between companies, researchers and clinicians. This human convergent work will be presented in this session where new strategies for treatment planning and execution will be the essence of cutting-edge presentations of several leading researchers and clinicians.

New insights in the management of tooth extraction

Massimo del Fabbro (Italy)

- Evidence-based clinical assessment of Endoret® (PRGF®) in tooth extraction.
- Immediate implant placement in aesthetic zone. Small details that make the difference.

Short and extra-short implants: where is the limit?

- Biometric-guided treatment of severe atrophy in posterior maxilla: one visit surgery?
- The osteogenic potential of UnicCa dental implants.
- Prosthetic rehabilitation of short dental implants: step by step.

EAO SEPES | PROGRAMME OVERVIEW

Friday October 6th HANDS-ON SESSIONS

🕒 09:00 > 11:30 or 13:30 > 16:00

Geistlich
Biomaterials

MORNING 9:00 > 11:30

Use of a volume stable collagen matrix in the treatment of soft tissue defects around implants

Daniel Thoma (Switzerland)

An innovative volume-stable collagen matrix provides the opportunity to treat soft tissue defects around implants without using autogenous tissue. This hands-on workshop offers valuable insights and opportunity aplenty to train one's surgical skills with a new product.

AFTERNOON 13:30 > 16:00

Use of a volume-stable collagen matrix around implants in the aesthetic zone (workshop in Spanish)

Ignacio Sanz Martin (Spain)

This hands-on workshop will let you perform soft-tissue augmentation around implants using an innovative volume-stable collagen matrix. Flap design, product properties and thorough practical training are key factors for a successful outcome.

ClaroNav

Introduction to dynamic navigation using Navident, with hands-on workshop

MORNING 9:00 > 11:30

Speaker to be confirmed (Spain)

AFTERNOON 13:30 > 16:00

Hadi Antoun (France)

This workshop introduces the clinician to the surgical aspects of dynamic navigation using the Navident system. It starts with an introduction to the technology and workflow, followed by case presentations from an experienced implant surgeon. Theory is put into practice through a hands-on workshop with models. This will give the attendees a great learning experience, which allows clinicians to use the technology in their clinic faster and more effectively. On completion, the participant will be familiar with techniques necessary to treat patients using dynamic navigation, for partially and fully edentulous cases, and receive certification.

Nobel Biocare

MORNING 9:00 > 11:30

OR AFTERNOON 13:30 > 16:00

Immediate tooth replacement using NobelActive implants – Nobel Biocare hands-on workshop

Tristan Staas (Netherlands)

Hands-on training in immediate implant placement. With the support of scientific evidence, dogmas surrounding the patient benefits of immediate implant treatment protocols will be discussed and challenged. Dr Staas will provide step-by-step guidelines for predictability in single and multiple immediate tooth replacements.

Hands-on exercise

- Step-by-step surgical sequence and clinical tips for immediate implant placement.
- Placement of a NobelActive implant in the aesthetic zone using models.
- Demonstration of provisional restoration using the new Snap Temp Abutment.
- Techniques for creating implant provisionals.
- Soft tissue management around implants.

Saturday October 7th INDUSTRY LUNCH SYMPOSIA

🕒 13:00 > 14:00

AlphaBio
Simplantology

The way to Itaka: from vision to clinical implication

Dieter Bosshardt (Switzerland)

Ofer Moses (Israel)

Revolutionary surgical solutions while exploring implant housing biology require combination of vision, open minds, precise animal models and surgical skills.

Collaboration with experts in histology is crucial to obtain high-quality results, and their correct interpretation ultimately indicates innovative implications for academic and clinical use.

Industry lunch symposia

The industry lunch symposia provide an opportunity for delegates to attend an industry symposium while enjoying lunch in the room at the same time.

Note for industry partners:
There are a few slots for industry-led symposia still available. Please contact Delphine: d.vieljeux@eao.org

PLANMECA

MORNING 9:00 > 11:30

OR AFTERNOON 13:30 > 16:00

Introduction to designing surgical implant guides with Planmeca Romexis

Alexandros Manolakis (Greece)

Join our hands-on training session to improve your implant planning workflow and its predictability with the help of the latest tools of our all-in-one software, Planmeca Romexis. During the session we will complete the implant planning with the help of a virtual patient, including a CBCT image, an intraoral scan, and a virtual crown design. After completing the implant planning, we will go through the whole surgical implant guide design process step by step. You will learn how to plan and design your own surgical guides. Prosthetic-driven implant planning is easy and smooth with Planmeca Romexis tools!

Dentium

FACULTY AND MEMBERS' DINNER

EAO-SEPES-SEPA MEMBERS & ACCOMPANYING GUEST FOR 75 € PER PERSON

Thursday October 5th 2017
Casino de Madrid

The Casino de Madrid was first founded in 1836, when a group of young romantics and progressive liberals of Spanish society decided to search out a quiet and peaceful place removed from the world of politics. The Casino now houses an exquisite collection of paintings and sculptures, making it a site of Artistic and National Heritage.

Don't miss the opportunity to join congress speakers and other delegates at the 2017 Faculty and Members' Dinner.

The renowned chef, Paco Roncero, winner of two Michelin stars, heads the Casino's restaurant and catering service. Enjoy fine dining at its best in the breathtaking halls of the Casino de Madrid.

NOTE: Please note that a jacket and tie are required for access to the venue.

Note

Places at the dinner are available to EAO, SEPES and SEPA members and an accompanying guest for 75€ per person. Tickets will be allocated on a first-come, first-served basis.

GENERAL INFORMATION

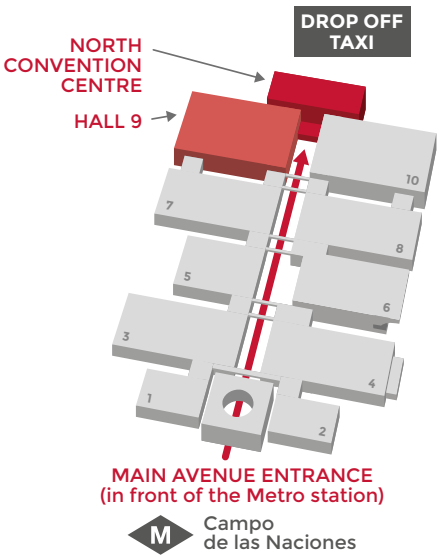

Date

From Thursday October 5th to Saturday October 7th, 2017.

Venue

The EAO-SEPES joint meeting will be held at:

IFEMA FERIA DE MADRID
North Convention Centre, Hall 9
Avda. del Partenón, 5
28042 Madrid, Spain

Transport to Madrid

The Spanish capital is connected by plane with main cities in Europe and America, and by road and rail with all the cities in Spain.

FROM ADOLFO SUAREZ INTERNATIONAL AIRPORT

The airport is just 12km from the city and its public transport connections are among the simplest and fastest in the world. In addition to the usual connections by bus, metro (line 8) and taxi, the Cercanías Renfe train service connects the airport's Terminal 4 to Chamartín and Atocha stations (line C1). The airport is just 15 minutes from city centre by train.

FROM AIRPORT TO IFEMA:
Taxi: around 5 minutes for a minimum fare of 20€
Metro: direct with line 8 for 15 minutes (1.50€)

For more information visit: www.aeropuertomadrid-barajas.com

CHAMARTÍN AND ATOCHA RAILWAY STATIONS

Madrid uses Spain's high-speed rail (AVE) service, with connections ranging between 15 minutes and 2 hr 45 mins from both Chamartín and Atocha stations to the country's main cities (such as Toledo, Avila, Segovia, Valencia, Alicante, Barcelona, Valladolid, Saragossa, Málaga, Córdoba, Seville).

For more information visit: www.renfe.com

MADRID METROPOLITAN

The Metro is probably the fastest, most efficient and economical form of transport in Madrid. The capital has a large underground network that reaches virtually every corner of the city. Line 8 is the most efficient line, which allows you to travel directly from IFEMA to the airport (15 minutes) or from IFEMA to the city centre for 20 minutes.

For more information visit: www.metromadrid.es

Visa

Depending on your nationality, it may be necessary to obtain a visa before leaving your country. In this case, you can find all the information you need on the Spanish Ministry for Foreign Affairs and Cooperation's website: www.exteriores.gob.es

Official language

The official language of the EAO-SEPES joint meeting is **English**. Translation into Spanish will be available in some sessions.

Official carrier

Negotiated rates are available for congress delegates, more information on www.eao-sepes2017.com

TARIFAS DE INSCRIPCIÓN

Registration is available through the EAO-SEPES joint meeting website: www.eao-sepes2017.com

	Early bird (Before June 26th)	Before September 30th	On-site registration
EAO, SEPES and SEPA members + Invited Region (Latin America)	290€	490€	600€
EAO, SEPES and SEPA student members	150€	320€	450€
Non-members	600€	700€	800€
Group registration	590€*		

***PRICE VAT INCLUDED (10%)**
Registration fees are based on the date of receipt of the registration. The prices indicated are per person and are only applicable if both the registration form and the payment are received before the deadlines above; otherwise the higher registration fee will be applied. On-site registration desks will open on October 4th, from 15:00 to 19:00.

- The conference registration fee includes:
- admission to the joint meeting sessions, poster areas and exhibition
 - joint meeting documents including the final programme, digital abstract book and congress app
 - lunches and coffee breaks

EAO member registration

Please log in to your online member area to register for the joint meeting or become an EAO member and save on your registration fee!

- regular membership: 225€ (+50€ joining fee the first year)
- young professionals: 140€
- student membership EAO: 50€

(Belgium VAT of 21% included for membership)
Further info at www.eao.org

SEPES and SEPA member registration

Please note that your SEPES or SEPA membership for 2017 should be up to date before you register at the preferential rate. SEPES or SEPA members should go to www.sepes.org or www.sepa.es to register for the joint meeting.

Group registration (special rates)

- minimum: 10 participants
- deadline for group registration July 23rd
- payment upon receipt of invoice (final deadline for payment: September 1st)
- online registration via www.eao-sepes2017.com

Hands-on courses registration

Delegates can register for the morning or afternoon session for only 160€ (included VAT).

Faculty and Members' Dinner registration

Places at the dinner are available to EAO, SEPES and SEPA members and an accompanying guest for 75€ (included VAT) per person. Tickets will be allocated on a first-come, first-served basis.

Payment

Payment must accompany your registration. Registrations received without payment will not be processed or confirmed. Your credit card transaction will be processed through EventTime (Official Registration Secretariat).

Confirmation

Receipt of your registration and credit card payment will be acknowledged by email. If you do not receive confirmation, please contact: Samya Boufar
samya.boufar@eventime-group.com

VAT

All prices (registration fees, hands-on courses, Faculty and Members' Dinner) include Spanish VAT at 10% as of March 2017.

Invoice

An electronic invoice will be emailed to you. The invoice will be issued within a week of registration and cannot be changed, so please make sure you have provided the correct information (company name, address and VAT number if applicable). Please direct any enquiries to Samya Boufar: samya.boufar@eventime-group.com

Cancellation policy

All registration cancellations must be made in writing (by email) to Samya Boufar: samya.boufar@eventime-group.com

UP TO AND INCLUDING JUNE 30TH.

You will receive a reimbursement of 50% of the fees paid. If you have not paid prior to cancelling, 50% of the registration fee will still remain due.

FROM JULY 1ST.

No refund. If you have not made payment before that date, the total registration fee will still remain due to the congress office. All refunds will be issued after the congress. Queries will not be accepted after October 27th 2017.

Name change

Registered participants who are unable to attend the congress cannot nominate a substitute participant. Name changes are not permitted.

Shopping

Shop windows, displays and shelves present such an extensive variety that they are sure to catch the interest of every passer-by. The wide range, high quality and infinite and attractive possibilities on offer make shopping in Madrid an incredibly tempting experience. Visitors can find products to suit every taste and budget, in locations ranging from the exclusive showrooms of the Salamanca district to traditional stores in the city centre.

For more information visit:
www.esmadrid.com

Gastronomy

Mediterranean cuisine is inextricably linked with variety. Visitors can choose between simple tapas, innovative restaurants and exotic menus. Madrid boasts over 5,000 restaurants which cater to the most discerning palates and present unique flavours. The city can be considered a melting pot of the world's most diverse cooking traditions and, of course, the best Spanish specialties.

Regional cuisine is well represented in Madrid, and a near limitless range of stews, roasts, salads, desserts, wines and liquors can be found among the city's gastronomic offerings.

Culture

More than one hundred museums and two hundred historical monuments perpetuate the history and artistry of Madrid's inhabitants over the centuries. The children of Madrid (Madrileños), by birth or adoption, have an illustrious legacy including Cervantes, Velázquez, Goya, Picasso and Dalí.

Madrid offers its visitors a unique travel experience. Why not tour Madrid's famous 'Golden Triangle of Art'? The city's three most important museums are within walking distance along the landmark boulevard, Paseo del Prado. Visit the extraordinary collections of the Prado Museum, the Reina Sofia Museum and the Thyssen-Bornemisza Museum.

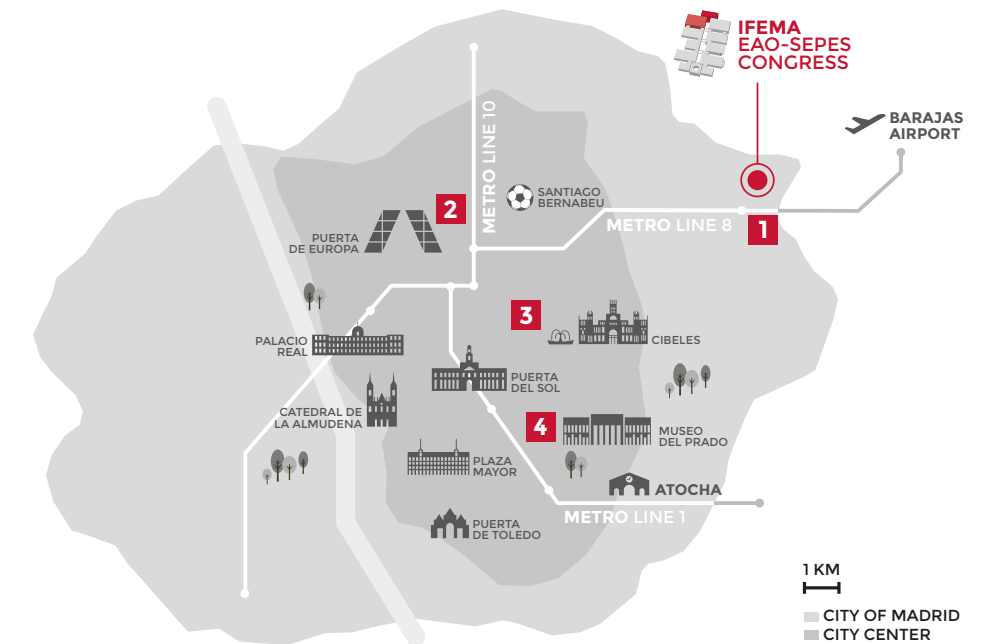

You can even experience the cultural and historical legacy of Madrid in its streets, where many eras of history are tangible at once. Discover the breathtaking architecture of the Habsburg empire and the influence of the Bourbons, and enjoy the artistic achievements of Medieval Madrid.

Romantic Madrid

Madrid is a city for romance, for lovers, nature-lovers, and art-lovers. Fall in love with this marvellous city, and visit the tranquil and romantic Debod Temple, the Sabatini Gardens, and the rooftop of the Circulo de Bellas Artes.

ACCOMMODATION

CHEAPER THAN
